PROJECTS

REAL ESTATE APP | BUY AND SELL PROPERTIES ⚬
Dec 2024

- Transparent Real Estate Platform for Direct Buyer-Owner Interactions and Seamless Property Management.
- Saves 20-30% in brokerage fees and 50% time by enabling direct buyer-homeowner communication.
- Used Axios for efficient API calls, reducing data fetch times by 30%.
- Designed responsive UI with React and Tailwind, improving user experience across all devices.
- Engineered robust backend with Node.js, Prisma, and MongoDB, supporting CRUD operations for listings.

ADITYA SINGH PORTFOLIO | PORTFOLIO WEBSITE ⚬
Dec 2024

- Made it using React as I have also used 3D components for that I have used Three.js.
- While hosting, I also delved into the intricacies of purchasing a domain name for it. Additionally, I learned how custom domains work.
- Certainly, this project of mine showcases my other projects but this is a standalone project itself as I have added 3D touch to it using three.js and framer motion.

AIRBNB CLONE | FULL STACK USING MEN ⚬
Dec 2024

- Full-stack Airbnb clone application using Node.js and Express.js for the backend and EJS for templating.
- The project utilized MongoDB with Mongoose for data persistence and leveraged Cloudinary for image storage.
- Passport.js handled user authentication, while Mapbox provided interactive maps for property browsing.

TO-DO APP | USING REACT'S USECONTEXT ⚬
Dec 2024

- Never lose track of your progress - tasks are persisted in your browser's local storage, so they survive page refreshes!

EZELUXE [STATIC] | USING REACT AND REACT ROUTER DOM ⚬
Dec 2024

- Developed Ezeluxe, a static website using React and React Router DOM during my internship at Traceworks Technologies.
- Leveraged Tailwind CSS for rapid and responsive UI development.
- Improved website loading speed by 20 percent for a smoother user experience.

EXPERIENCE

TRACEWORKS TECHNOLOGIES
| MERN Stack Developer Intern
5 June 2024 – 17 Aug 2024 | Remote

I worked on multiple projects there like Ezeluxe, Letsquiz, Appispot, Traceworks Job Portal

I made the Ezeluxe website from start to finish, I was assigned to test Appispot later I was responsible for it's UI also, during my tenure did bugs fixes in let's quiz along with another developer, and was working on traceworks job portal when I left.

Collaborated with other developers, UI/UX team.

Learnt a lot as it was my first internship, Ashwin Sir (CEO) guided me a lot.
